

the Legacy

The Legacy hobby greenhouse kit provides the best of both worlds for those gardeners with big dreams and a small yard! The Legacy is built with insulating twinwall in the roof and single glass sidewalls to peek into your beautiful garden.

Strength

- Designed to withstand the **heaviest snow loads and highest winds**
- Our DIY build plans include heavy aluminum frame spaced every 2 feet for maximum versatility and durability
- Unbreakable 6mm twinwall polycarbonate glazing on the roof and 3mm single tempered safety glass for your sidewalls

Maximize Your Growing Space

- 8x8 provides **75% more growing space** than typical 6x8's
- Taller sidewalls, ideal for hanging baskets and tall plants
- Extra width to accommodate larger benches

Energy Efficient

- Extra-large roof vent for ventilation
- Solar powered automatic vent control opens when you're not home
- Adjustable screened glass door panel for additional air flow
- Twinwall glazing diffuses light to **protect plants** from burning in the summer

Even More Benefits:

- Extension Kit available to increase size at later date
- Premium lockable, maintenance free storm door
- Limitless staging thanks to intuitive bolt track design
- Clearly labeled parts and easy to follow DVD + written instructions
- Wood crated for safe delivery and shipped directly to your home
- **Unbeatable warranty** and best technical support in the industry!
